

Introducing Global Geophysical

The New Start-Up with Over a Century of Industry Experience

We're a new company, with a new name, and all new state-of-the-art equipment. But we've got hundreds of years of collective experience in seismic data-acquisition operations. Consider that Global Geophysical has:

- ***A seasoned management team with over two decades of successful collaboration in all aspects of geophysical operations***
- ***Experience in over 50 hydrocarbon basins worldwide***
- ***Expertise in all operational environments including arctic, jungle, desert, mountain/highland and shallow water/transition zone.***
- ***A streamlined corporate structure that maximizes responsiveness while minimizing bureaucratic inefficiency and overhead***
- ***Well trained field crews motivated for high productivity by our unique employee-ownership corporate culture***
- ***A commitment to field safety and sensitivity to the environmental impact of our operations***

Find out how Global Geophysical combines 21st Century geophysical technology with the entrepreneurial tradition of the doodlebugger. Put Global on your bid list or contact us for more information.

Reservoir Grade Seismic Solutions

RG2D, RG3D and Reservoir Grade are service marks of Global Geophysical Services
